

Introduction to IBM Fusion, Fusion HCI and AI Platform Synergy

2025 Storage Scale West Coast User Group

Chris Almond
Principal Technical Specialist, Storage
chris.almond@ibm.com

IBM Fusion: Software Defined Storage & Engineered HCI

Customer Apps

	IBM Cloud Paks					Databases				Off the shelf			Custom apps	
	Data	Integration	Security	Cloud Satellite		Cassandra	MongoDB	RabbitMQ		Pega	Mulesoft		Home grown	
	Business automation	Watson AIOps	Network automation			Elastic search	PostgreSQL	Spark		TIBCO				

Offering

Fusion Software only (SDS)

Simple. Runs anywhere and everywhere

1

- Consistent experiences
- APIs
 - Fusion console
 - Data protection
 - Disaster Recovery
 - Fusion Data Foundation*

2

Fusion HCI System

OpenShift appliance

Built on

Deployments

							
AWS EBS	Azure block	Persistent disk	IBM block	SAN, vSAN	DS8K	FlashSystems	Server-attached drives

Hyper-Converged Infrastructure for OpenShift
Software-defined system, combining storage, compute, networking
Switches, servers, storage

Fusion, software defined storage & appliance

Offering

Fusion Software only (SDS)

Simple. Runs anywhere and everywhere

1

Consistent experiences

- APIs
- Fusion console
- Data protection
- Disaster Recovery
- Fusion Data Foundation*

Built on

- ✓ Persistent storage
- ✓ Data Protection across sites
- ✓ Consistent Data Management across Clouds
- ☐ Client needs to source infrastructure
- ☐ Client needs to install OpenShift

Fusion HCI System

OpenShift appliance

2

- ✓ Infrastructure automation
- ✓ HW monitoring
- ✓ Fully assembled, hyper-converged **appliance***
- ✓ OpenShift installed by IBM

*Sold with Expert Labs Installation package and Expert Care Premium for continued support incl dedicated technical account manager

“You could spend six months designing an architecture and six months proving it.....

- Reduce dependencies & complexity
- Up and running in 6 hours
- IBM Maintenance
- No OpenShift deployment skills required

...or eliminate the guess work and go with engineered platform”

CAS Integration with IBM Fusion HCI: turn-key engineered solution

Simple

- Turn-key, all-in-one
- Zero to inferencing in weeks not months

Works w/ legacy data

- Connects to IBM and third-party storage
- Unleash data without copying/moving

Enterprise grade

- HA/DR/backup built-in
- Automated Day-2 operations

Fusion SDS Options
